

2027 Stationery Requirements & BYOD Specifications

(Bring Your Own Device)

General Stationery Requirements

These stationery items are ADDITIONAL personal subject items required and are not part of the Student Resource Scheme (SRS Scheme) .
Excursions held throughout the year may incur additional fees.

All students are to provide the following: School bucket hat/cap (available for purchase from the school uniform shop), water bottle, school bag (clearly identified) and sunscreen.

For HPE and Sport - it is mandatory that students wear the Balmoral sports uniform, school bucket hat, sunscreen and water bottle.

	Purchase Quantity

Laptop as per Balmoral SHS BYOD policy (on school website - EXAMPLE ONLY) www.balmoralshs.eq.edu.au - details attached.	1

Students will be issued a school diary which will be used during Period 2 on a Tuesday in the TRP class (Resilience Project)

Stationery required for Day 1- 4 x A4 exercise books and general writing implements & highlighters.

All students commencing at Balmoral State High School will be guided through the process on how to access the school network during the first few days of induction.

Laptops Year 7 are not required Day 1. Students will be told during the induction period (week 1) when laptops are required to be bought to school.

2027 BYOD POLICY

(Bring your own device)

PLEASE NOTE: The following are <u>not supported</u>:

Chromebooks, Android devices (including Galaxy tablets), Windows 10 or older, Linux, Apple devices and devices with Snapdragon processors.

Windows 10 standard support ended on 14 October 2025.

Some add-on insurance products, including some Accidental Damage Protection (ADP) policies, are subject to a mandatory four-day deferral period. Exemptions apply. Ask your retailer or insurer when ADP can be purchased and how it will be offered. We still recommend purchasing ADP.

Selecting a device for school:

Device Requirements

The best way to purchase a laptop is to shop around your local retailers and take advantage of sales.

To make sure your device is suitable for the school, please ask your retailer the following questions:

Can it connect to the school network?

Devices must support 5 **GHz Wi-Fi** (at least Wi-Fi 5 / 802.11ac), often available on devices described as having d**ual-band Wi-Fi**.

Windows 11 devices are required at our school. Apple devices are not supported.

Do not buy a Chromebook, as Chromebooks are not compatible with our school network.

If in doubt, ask your retailer "Does this device run Windows 11 and support 5 GHz Wi-Fi?".

Will it last the whole school day?

Battery life can vary depending on usage and batteries degrade over time.

We recommend an advertised battery life of 8 hours.

If in doubt, ask your retailer "Will this device last an entire school day, even after three years of use?".

Is it fast enough to be useful?

Our experience shows that two main indicators of BYOD performance are the number of CPU threads and SSD storage.

Do not buy a device with a mechanical hard drive (HDD). Choose a device with at least a **256 GB solid-state drive (SSD)**.

Choose a device with four or more CPU threads. If in doubt, ask your retailer "Does this device have a 256 GB or larger solid-state drive and four or more CPU threads?".

If it breaks, can it be fixed?

Technology fails and accidents happen. Choose a device with more repair options to:

- Save money by repairing instead of replacing;
- Reduce stress when accidents occur.

We recommend choosing a three-year warranty and Accidental Damage Protection (ADP) with a $0 excess for your device. Alternatively, choose a device that can be repaired by your local repair shop. If in doubt, ask your retailer "What repair options do I have for this device if it breaks?".

Required Software

You **don't** need to purchase any optional software (e.g. Microsoft Office) with your device.

We **don't** recommend purchasing Trend Micro, McAfee or other third-party antivirus programs, as they may interfere with your student's connection to the school network. Windows devices include Microsoft **Defender** Antivirus, which is supported by the Department and the school network.

Once you have your school username and password, you can access software downloads for **Microsoft Office, Adobe** and other software from our student intranet:

Questions

Please get in contact with us at IT@balmoralshs.eq.edu.au

Minimum Required Specifications for BYOD Devices

Processor	Intel Pentium/ Intel Core i3 (2020+ / 10th Gen+)
Memory (RAM)	8 GB
Battery	8+ hours
Screen Size	13"
Resolution	1280 x 1024
Hard Drive (SSD)	256 GB
Network	Wi-Fi 5 (5 GHz, 802.11ac)
Operating System	Windows 11

If minimum specifications are not met, we cannot guarantee connection to the school network and the device may experience issues performing the learning tasks.

Recommended Specifications for BYOD Devices

Processor	Intel Core i5 12th Gen
Memory (RAM)	16 GB
Battery	8+ hours
Screen Size	13" - 15"
Resolution	1920 x 1080 FHD
Storage (SSD)	512 GB
Network	Wi-Fi 6 (5 GHz, 802.11ax)
Operating System	Windows 11

Year 7 Stationery Requirements Balmoral State High School

Core Subjects for the Year	**Elective Subjects - Term subjects**
